Department of Agriculture

State Agriculture Research Station

Dated, A.D.Nagar, the 16/03/2018.

Notice inviting application for participation in the performance trial of hybrid paddy and hybrid maize during kharif' 2018

Applications are hereby invited from the interested seed producing companies /authorized dealers for participation in the performance trial of hybrid paddy and hybrid maize to be conducted at State Agriculture Research Station during kharif ' 2018.

The Format for submission of technical information along with terms & conditions in details can be had from the office of the undersigned on all working days and also can be downloaded from the website- [www. agri.tripura.gov.in](http://www.agri.tripura.gov.in)

Terms & Conditions

- 1.** Applications along with duly filled in format (A&B) and related copies of technical information of the Research & Development (R & D) Division of the participating companies about the suitability of new hybrid Paddy and hybrid Maize under acidic soil and agro-climatic condition of North Eastern Region of India will be received on 31st March, 2018 upto 5.00 P.M.
- 2.** Yield performance trial of maximum 10 samples of hybrid Paddy and 5(Five) samples of hybrid Maize will be conducted during every Kharif season.
- 3.** Performance of each new hybrid would be tested by conducting trials at least for 3 consecutive seasons.
- 4.** A Trial Committee shall scrutinize the applications, duly filled in formats and copies of related technical information in support of Hybrid Paddy and Hybrid Maize and also prepare a list of prospective hybrids for inclusion in the trial programme based on the morphological characters claimed by the concerned company's Research & Development (R & D) Division.

- 5.** The shortlisted companies/ their authorized local dealers shall have to pay trial fees in advance by Cash/Cheque/Draft/ RTGS @ Rs. 3000/ only per entry separately for each season in favour of the Joint Director of Agriculture (Research), Agartala, Tripura along with seed sample of 1(one) Kilogram.
- 6.** The Trial committee will thoroughly scrutinize the results of trial and identify the best performing hybrids from among the tested hybrids based on the following norms:
- i)** The candidate hybrid should be uniform for important characters like plant height, maturity etc.
- ii)** The candidate hybrid must be stable for the key traits such as resistance to a specific insect pests & diseases.
- iii)** The candidate hybrids should possess some distinct diagnostic features including grain yield making them different/identifiable from extant hybrid.
- 7.** The Trial committee may exclude any hybrid from the subsequent trial programme if the yield of tested hybrid fails to give 10 % yield advantage over the yield of popular check variety of first season trial.
